Green & Social Compliance Policy Statement

Shenzhen Sunny Glassware Co. Ltd

Packaging Reduction

- We have a team in place focusing on the reduction in size/weight/type of packaging.
- We measure the amount of composition of, and/or weight of the packaging we use.
- We have specific goals in place to reduce the size/weight of packaging.

Suppliers, Permissible harvests and origin of raw materials

- Before beginning a business relationship with a manufacturing factory, we evaluate their quality of production and capacity for production.
- We employ chain-of-custody certification to ensure that we know precisely where our raw materials come from.

Third-Party Certifications

- We have obtained 3rd party certifications for the products that we sell or we utilize materials that are currently certified.
  - SMETA
  - Local Environmental Impact Assessment (EIA)
- We is/represents the Society of the Plastics Industry labeling system for packaging containing PVC.

Other considerations:

- We are willing and able to publicly report our environmental performance to buyers on an annual basis using a recognized, third party method.
- We are considering the following aspects:
  - Water use management
  - Environmental management systems
  - Noise pollution prevention
  - Permissible harvests and origin of raw materials

Social Responsibility

- We have a process for managing social compliance at the manufacturing level.
- We work with our supply base to resolve issues found during social compliance evaluations and also document specific corrections and improvements.
- We invest in community development activities in the markets we source from and/or operate within.
- We have obtained certifications for labor policies and work practice, currently certified.
  - Certifications that prove your compliance with local laws and regulations
