

此 玻璃 瓶 係 由 玻璃 製 成 之 容 器 ， 其 容 量 為 800ml ， 且 具 有 耐 熱 及 耐 腐 蝕 之 特 性 ， 適 合 用 於 裝 盛 藥 液 或 化 驗 試 劑 等 。

Corrosion is a natural process that occurs when a metal reacts with its environment. This reaction leads to the formation of a protective layer, which can either slow down or speed up the corrosion process. The rate of corrosion is influenced by factors such as the type of metal, the environment, and the presence of oxygen and moisture. In this case, the metal has reacted with oxygen and moisture, forming a thick layer of rust. This rust layer is porous and does not protect the metal underneath, leading to further corrosion. The metal is now significantly weakened and may no longer be suitable for its original purpose.

WIDE RANGE OF APPLICATION

Suitable for: home life/coffee shop/restaurant/wedding/party/Christmas etc

HOME LIFE

COFFEE SHOP

RESTAURANT

WEDDING

PARTY

CHRISTMAS ETC

Different From The Peer

Own professional shipping company(Shenzhen Sunny Worldwide logistics)

20+ years freight history and WCA members.

PACKING

We have Normal packing, PVC box
Window box, carton box, pallet Color box, White box, ect.
of course, we can customize
Individual gift box for you.

Gift box

Carton

Pallet

Wooden case
