

### Product Details

Product Code	SG80901
Category	Construction Materials
Material	High-Strength Steel
Specifications	1. Yield strength: 500 MPa 2. Tensile strength: 650 MPa
Dimensions	4000mm x 48mm
Weight	500,000g - 1,000,000g
Surface Treatment	Galvanized / 30mm thickness B / L
Standards	ASTM A36 / A572-42
Applications	1. Structural steel 2. Reinforcement 3. ASTM standards
Notes	1. High strength 2. Good weldability 3. Excellent corrosion resistance 4. Long service life 5. Easy to install
