hand”
 Every SCANPAN aluminum product is cast by hand and goes through eight sets of hands. The minutely-controlled process begins with recycled aluminum, from scrap or cans, which is melted down.

Tradition
Innovation

Did you know...? SCANPAN was founded in 1954 in Denmark, where tradition is a Danish strong point. The product workers' understanding of the whole process of producing quality products like SCANPAN is not just a matter of the everyday work but also the training of new factory workers, up to the

Sustainable materials
 Customers are also guaranteed an environmentally-friendly

handle and, after a final quality check, the product is packed in recycled materials and prepared for sale.
 Polishing with Danish beeswax continues to be an important part of the finishing process for SCANPAN's pressure-cast frying pans.
