hand

Every SCANPAN aluminum product is cast by hand and goes through eight sets of hands. The minutely-controlled process begins with recycled aluminium, from scrap or cans, which is melted down.

The brand's aluminum...

Introduci
Maire D

SCANPAN's Maire D series includes a modern range of copper and stainless steel cookware and pieces of furniture and accessories.

Maire D includes six cookware ranges in many copper designs that are enduring. The single multi-layer construction of steel inside aluminum on the exterior has durability to protect your dishes.

It's the base for modern competing and copper handled design. The range also delivers design flexibility and cooking ease from a depth of 10 to 18cm, ranging from 18cm to 28cm. The steel handles, wide 5-7cm, large 10-12cm, and the ergonomic feel of the SCANPAN Maire D is a series of elegant and functional design with a focus on design and usability. The design and usability of the Maire D series is a focus on design and usability.
