[Decorative Elements](#) Centerpieces & Votives

Votives are small, decorative candles that can be used in a variety of ways. They can be placed in glass holders, ceramic containers, or even directly in the center of a centerpiece. They are a great way to add a touch of warmth and light to any occasion.

For a simple and elegant look, try using white votives in clear glass holders. For a more dramatic effect, use colored votives in matching holders. You can also use votives to create a centerpiece by placing them in a row or a circle around a central object.

Remember to always use votives safely and never leave them unattended. Enjoy the warm glow of these decorative candles!
